Hi Linda and all,

Staff and I have come up with a possible temporary solution that may be acceptable to you. The "Annex" next to the Administrative Offices is a bit larger than the North Abrego meeting room. We could make this room available to Glass Arts 7 days a week all day. It would essentially become your dedicated space until we can identify permanent dedicated space.

Benefits include:

Close proximity to the Glass Arts kilns

Dedicated; no need for moving material in and out daily

GVR will relocate the Glass Arts shed

GVR will install an outdoor utility sink

Please let me know your thoughts. We can schedule a tour next week or whenever is convenient.

Thanks for your patience,

Scott
